Subject: Updated Official Rankings – National Baseball Teams (July 2025)

Dear Sir,

With reference to your letter No. F.15-3/2024-PSB (NF) dated 11th July 2025, please find below the updated official rankings for our national baseball teams as per the latest WBSC World Rankings (as of 23 July 2025):

- | | |
|---|---|
| ■ Men's National Baseball Team | ■ Women's National Baseball Team |
| • World men's Ranking: 35th (previously 38th) | • World women Ranking: 14th (previously 17th) |
| • Asian men's Ranking: 8th | • Asian women's Ranking: 7th |

Ranking Basis & Strategic Recommendations

- These rankings are based on official participation and performance in recognized Baseball Federation of Asia (BFA) and WBSC events.
- To maintain and improve these rankings, it is essential that Pakistan participates in all upcoming official Asian Championships across all age categories, including U-12, U-15, and U-18, for both men and women.
- For Olympic qualification, top-ranked countries such as Japan, Chinese Taipei, Korea, USA, and Canada consistently organize additional international series. These matches allow them to earn critical points beyond BFA events.

We strongly recommend organizing similar international series for Pakistan's national teams to secure additional ranking points and boost our Olympic qualification prospects.

We remain committed to enhancing Pakistan's presence in global baseball.

SYED FAKHAR ALI SHAH
Secretary General
Pakistan Federation Baseball
